

JF McKenna are hiring.

JF McKenna are seeking to fill the role of Installation & Service engineer, based in Northern Ireland. The role is to work within our engineering & project teams to deliver the highest level of electrical, engineering, and mechanical support to our mushroom, poultry, and pig customers. The role also engages in preventative & reactionary maintenance, responding to breakdowns, diagnose faults and carry out repairs. The role requires you to work on site during projects, new builds, and refurbishments.

The company – JF McKenna.

JF McKenna is an industry leader in the supply of mushroom, poultry, and pig house equipment. We supply gold standard equipment, including Fancom ventilation, Hato lighting, Chore time feeding systems and Lubing drinker systems. It is our mission to ensure we exceed the highest standards of supply, installation, and customer support, to promote, develop and encourage environmentally friendly & cost-effective solutions for Mushroom, Poultry and Pig housing.
